RE: Notification of Hazardous Waste Activity  
Oscar Mayer Foods Corporation - Sigourney, Iowa

Ladies/Gentlemen:

Enclosed please find a copy of EPA Form 8700-12 for our plant located in Sigourney, Iowa. Please assign our facility an EPA I.D. number and send us a supply of Uniform Hazardous Waste Manifest forms and instructions.

We are a small quantity generator and may or may not be subject to existing hazardous waste regulations at this time. However, to prepare for a probable ultimate need, we request assignment of an I.D. number.

We are aware that our State's hazardous waste rules may differ from USEPA rules. We accordingly request that you summarize state regulations applicable to small quantity generators with respect to such topics as record-keeping, reporting, and management practices, especially where such requirements differ from or exceed Federal requirements.

Thank you for your cooperation in this matter.

Very truly yours,

Paul C. Hurst  
Facility Manager
